

ARRIVING TO JERUSALEM

A wholehearted service

**The Ministry of Transport and the National Public
Transport Authority Proudly Present:**

Improvements and Changes to Public Transport

Starting from 23.7.2021

July 2021

Dear Passengers,

The Ministry of Transport and the National Public Transport have set themselves a goal of providing you, residents of Jerusalem, a high quality level of public transport service, enabling you to choose public transport as a worthy, satisfactory transport option.

This service improvement initiative, which is being rolled out these days in Jerusalem, is the end-product of a thorough thought process, examination of your needs and finding creative solutions intended to achieve a "step up" in the level of service delivered in Jerusalem.

This is the first small step and further steps are already in the pipeline.

This initiative is part of an overall concept, which is being led by the Ministry of Transport, headed by Minister Merav Michaeli, who considers public transport to be a key tool for economic growth and for improving the quality of life for all citizens.

These days we are working on further initiatives, which are going to deliver a variety of solutions, which will enable more and more people to leave their cars at home and switch to public transport.

We will continue updating you on further developments and until then we wish you all travels down the good road.

Yaakov Israel Netanyahu
Manager, National Public Transport Authority

Dear Passengers,

We are delighted and excited to inform you that Superbus, a member company of the Blilius Group, is going to begin operating public transport in Jerusalem this Friday, July 23, 2021. We are proud and grateful for being entrusted with this challenge and we promise to serve you faithfully and to achieve improvements in all aspects of passenger service.

In order to operate the lines, we have acquired 400 minibuses and buses, all modern and environmentally friendly, equipped with advanced, upgraded safety systems, with advanced ticketing systems, and with charging and browsing connections to provide the passengers a travel experience fit for the 21st century.

The lines will come into operation gradually: already in this first stage the bus frequencies are going to be increased, and we will even be starting operation of a new line (Line 2) which will serve the city's residents and visitors in the tourist areas and the Old City.

We wish each and every one of our customers a pleasant, safe journey,

Tzachi Naveh
Deputy CEO, Superbus

So What's New?

Zahal Square - Wailing Wall - Zahal Square

Via Jaffa Gate and the Jewish Quarter
